WIDER....the name says it all...

This revolutionary model has two side extensions that enlarge the deck by 10 feet of usable space, appearing in only 12 seconds.

Each of these extensions/terraces have buoyancy compensators underneath for stability.

The Wider 42' remains extremely light and strong, as she is 70% carbon fiber.

This model is constructed using the vacuum infusion molding techniques, the **same** techniques used for aerospace and formula one racing. The **stepped hull**, an offshore racing design, and power from Twin Cummins 480hp engines with Arneson surface drives, ensure an impressive speed of 50 Knots.

The **stern multi-pad system** is extremely versatile, taking on different layouts. A space which can be used for sunpad, storage of diving equipment, or a jet ski.
